

# Cool

## Product guide

Meet the new classic, Cool – a sofa that truly pushes the boundaries of comfort right out the door.

Clever design and meticulous attention to materials selection mean that this sumptuous sofa can deliver the same luxury and comfort in your living room as it will in alfresco areas outside.

Tough yet sophisticated, Cool's interior frame is constructed from robust marine-grade ply using only water resistant adhesives.

High density, all weather reticulated foams in both the seating cushions and the well supported backrest ensure that comfort is not compromised if you opt to enjoy this sofa outdoors.

Cool is an arresting piece well suited to centre stage, with interesting features on show from every angle, from the optional nested

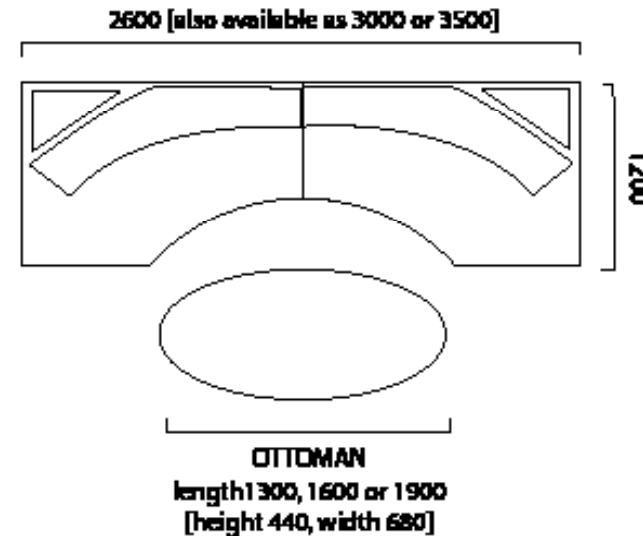

ottoman to the fine detail of natural stone slabs inserted behind the headrest.

Depending on its destination, Cool can be covered in a range of leathers or fabrics. If you imagine Cool gracing your covered outdoor entertaining area, ask to see our range of extreme leathers and fabrics suitable for the rigours of external environments.

Available in three standard sizes, Cool can also be custom made for specific sites.

Proudly made in Australia and guaranteed for ten years.

Cool is unique in that whatever length sofa you choose it will always come in two sections so that the graceful arc is never distorted. Cool is offered in 2600mm, 3000mm and 3500mm lengths and can also be custom designed for site specific installation.
